Version 8.4.2

This release contains minor user-interface improvements:

- [AI-4348] - Status Board jumps when scrolled to bottom
- [AI-4354] - Details button does nothing in Pending Changes view
- [AI-4364] - Duplicate nav bars in Trip View with Date Picker navigation
- [AI-4365] - Summary view not resetting values between months when no values
- [AI-4366] - Various Status Board widgets not respecting Preferred Airport Code (and misspelling in settings)
- [AI-4367] - Issues with entering OOOI times and keyboard hiding in Leg Editor when view is scrolled
