

Version 5.0.0

Revisions

- New sign in system with your NC Software account doing away with the prior need to know your Account ID and Username.
- New My Account system for subscription management
- New defaults in Settings/Flight log for Aircraft Type and Ident to preload flights with defaults if desired
- New Contact Us area on bottom of home screen with new bug report, feature request, and other communication systems
- Improve layouts, font sizes, and performance
- Change white background to an off-white so it's easier on the eyes and less fatiguing
- Minor bug fixes
