Version 5.0.0

Revisions

- New sign in system with your NC Software account doing away with the prior need to know your Account ID and Username.
 New My Account system for subscription management
 New defaults in Settings/Flight log for Aircraft Type and Ident to preload flights with defaults if desired
 New Contact Us area on bottom of home screen with new bug report, feature request, and other communication systems
 Improve layouts, font sizes, and performance

- Change white background to an off-white so it's easier on the eyes and less fatiguing
- Minor bug fixes
