

Version 8.0

NC Software announces the immediate availability of a major update to its Apple iOS app - Logbook Pro Mobile. Now available on the Apple App Store Logbook Pro version 8.0 brings exciting new features such as signature endorsements and light and dark theme options with a revised intuitive user interface. Significant improvements have been made throughout the app supporting the latest release of Apple's mobile platform iOS 14. [Click here](#) to download and install Logbook Pro on your Apple device today.

Thank you for the outstanding feedback to date which always shapes this app to help the aviation community with their pilot logbook needs. Please post any suggestions to our [Logbook Pro Mobile Suggestions forum](#) or submit feedback from within the app as desired. We appreciate your product reviews, please visit the app store and submit your product review at your convenience.

We hope you enjoy Logbook Pro and recommend to your friends. We're excited to increase the pace of our Logbook Pro updates now and bring more exciting updates soon.
